BERENDS SLASHERS

Twin Rotor Model

TWIN ROTOR

- Designed for tough conditions but also ideal for lighter work such as pasture topping and weed control
- Twin rotors fitted to two 75hp end gearboxes and connected by an extra heavy 110hp centre gearbox protected by a two-plate slip clutch
- Contra rotating rotors form a flat windrow behind the centre of the slasher or create two small windrows by reversing the direction of the rotors
- Trailing model fitted with 14" light truck tyres and 3pt linkage model fitted with solid rubber tyres
- Front and rear chains can be fitted on request

CODE	3PT LINKAGE SIZE	CUT	WEIGHT
0101	8'	2.30m	620kg
0104	10'	2.90m	875kg
0114	12'	3.50m	975kg

CODE	TRAILED SIZE	CUT	WEIGHT
0102	10'	2.90m	825kg
0112	12'	3.50m	925kg

SIDE DELIVERY

- Versatile heavy duty slasher ideal for orchard and vineyard use, depositing cut materials at the base of the trees from the left of the slasher
- Converts to a conventional slasher with the side flap closed, ideal for broadacre use spreading materials evenly over the ground - also suitable for hay cutting
- Unique suction uplift blades swinging on hardened bushes fitted to a heavy duty 75hp gearbox

CODE	CUT		WEIGHT
0090	5'0"	1.45m	470kg
0093	5'10"	1.75m	490kg
